

## WARRANTY & CARE INSTRUCTIONS

Two year warranty.

For maximum life of this product Hammaka recommends putting the Suelo stand indoors when you are located in extreme weather conditions. Check the welding joints to make they are secure each time before and periodically while sitting in the chair. Check that the stand has not rusted, especially in welded areas. Hammaka recommends using a rust inhibitor available at your local hardware store to prolong the life of the stand when leaving it outdoors.

**CAUTION:**  
**DO NOT JUMP BOUNCE OR SWING IN STAND; DOING SO MAY CAUSE SERIOUS INJURY OR DEATH!**

The Hammaka Suelo Stand is not designed as a swing. Maximum weight capacity is 250lbs. Do not exceed maximum weight. Inspect the stability and welds of the stand before each use. Children should not use the stand without adult supervision.

Please contact the Hammaka Customer Service department with any questions or concerns.
